The contributions of Cabo Verde and Cape Verdeans to America and world history have been ignored for more than five centuries. Finally, international historians are starting to take notice. The revelations in this book should arouse a strong interest from the Hispanic and African communities in North and South America, but they should also be of interest to anyone in the world who has an interest and desire to know more about the truth during and after the Discovery Period of history.

For example:

Did you know that Cabo Verde produced the first African-American president? (See page 25)
